See Here!—Beginning Monday, May 27, I will sell my entire stock of millinery such as hats, flowers, ribbons, chiffons, mulls, etc., at cost for cash. No goods charged in this line. Resp.

Mrs. D. S. Estill.

We acknowledge receipt of an invitation to the Commencement exercises of Sharpsburg College tonight (Thursday). The graduates are Misses Bettie Saunders, Lizzie Brown, Daisy Scott, Nannie Clark; Messrs. Coleman Moffett and John Berry.

PREVENTIVES.—A sheet soaked in formaldehyde and hung up in a room is said to kill both mosquitoes and disease germs of all sorts, including small-pox. It is not expensive. Also the planting of the castor bean around the premises is said to drive away mosquitoes.

UNCLAIMED LETTERS.—Remaining in the Owingsville postoffice June 4, 1901: Mrs. Minnie Robbins, Tom Campbell, Mrs. Mat Clark, M. L. Sorrell, Bill Reed, Mrs. Hannah Rann, J. Hayden, Toni Dattilo (foreign). Persons calling for above letters please say "advertised." J. N. Brooks, P. M.

JEFF DAVIS' BIRTHDAY.—The United Daughters of the Confederacy held a meeting at the Court-house Monday afternoon, it being the anniversary of Jefferson Davis' birth. After the meeting the ladies and Confederate veterans went out to the Cemetery and decorated the graves of the Confederate dead.

"Home-grown strawberries, fancy large, per bu., 32 quarts, \$3.75." Quotation from a Cincinnati firm's June 1st wholesale list to retail dealers.

Brother & Goodpaster sell home-grown strawberries at 84 cents per quart or \$2.65 for 32 quarts. You thus buy berries of their cheaper at retail than dealers in many towns pay wholesale.

RICE WILL CASE.—Mrs. Willie Hodge Wyatt, of Mt. Sterling, through her attorneys made a motion for a new trial of the Jefferson Rice will case, and Circuit Judge Cooper held a special session of the Equity Court here last Saturday to hear the attorneys on each side.

Mrs. Wyatt's attorney claim to have discovered new evidence and that one of the jurors that tried the case was guilty of misconduct in regard to the case while it was being tried. The Judge took the case under advisement.

STEALING OUTLOOKS.—Some years ago this office was much annoyed by somebody who had access to the mails stealing OUTLOOKS on their way to subscribers. The practice has been complained of again recently, and we have tested the matter sufficiently to know that the stealing is done by the mail agents or by somebody they permit to handle the mail. We request every one—subscriber or exchange—entitled to receive THE OUTLOOK to notify us promptly when a copy of the paper fails to reach them. We are collecting evidence to make a complaint to the U. S. postal authorities to have the stealing stopped. It is very damaging to a newspaper's reputation for reliability in business methods to make subscribers deprived of the papers in that way.

DIED IN LOUISVILLE.—Mrs. John F. Alexander, of Reynoldsville, died in Louisville Friday morning from the effects of a surgical operation. She was aged about 45 years. She was a daughter of Frank Snelling, deceased. Since Mrs. Alexander went to Louisville a week ago her eldest daughter, Mrs. George R. Markwell, died at her home in Carlisle.

DIED.—John Stone, who had been a patient at the Lexington Asylum for a few years, died May 31st. Funeral services were held at the residence of his father, James Stone, Saturday morning. The interment took place in the Owingsville Cemetery in the presence of a large attendance of relatives and friends. Deceased was born Jan. 16th, 1859, and lived here nearly all his life. He was an honest, industrious, clever man, and his many friends join with his relatives in mourning his death.

CUT IT OUT.—Some of our correspondents for the sake of joking, and others to conduct private warfare through the columns of THE OUTLOOK, have offended certain readers recently. One young gentleman is wrathful at a certain correspondent and wrote and handed in a vituperative article, which we decline to publish. The offensive items have not been understood by the editor or we would have cut them out. Hereafter we ask our correspondents to leave all such offensive stuff out, as we can't permit its insertion.

B. OF L. NOW.—Osmond F. Byron was graduated with the degree of Bachelor of Law at the Law Department of the Columbia University, Washington, D. C., May 28th. Osmond has been killing two birds with one stone—holding down a good position in the Census Office in his leisure time and attending the law lectures at night. Doubtless he is finely qualified now for his chosen profession and in securing his degree has put on a polish in legal learning that couldn't be secured readily in the practice in a country town.

LOUISVILLE TOBACCO MARKET.—By George R. Snyder, of the Stone Tobacco Warehouse Co.—June 1, 1901.—The market this week on Burley tobacco has been the strongest that we have had this spring, and the competition has been very active from manufacturers, as well as speculators. This is caused largely from the reports received from the country in regard to the backwardness of setting out the crop. We believe that advanced prices will be paid for the main crop. The season of the year shows advances in some instances of \$2 per hundred over six weeks ago. The common grades are very much stronger than they have been.

IN MEMORIAM.—Last Wednesday evening at 11:20 o'clock one of the purest, sweetest and most lovable girls passed quietly and peacefully into that great beyond—that beyond in which she had implicit hope. Maggie Blaine was the daughter of James and Georgina Riddle and was born February 10, 1885; died May 29th, 1901; aged 16 years 3 months and 29 days. She leaves a father, mother, five sisters and a host of friends to mourn their loss. We as friends shall miss her, but how quickly our thoughts revert to the home and loved ones so suddenly and sorely bereft. Alas, 'tis there that her presence will be missed. They knew her true worth and character. We do not understand why life should be so short, but that life is long which answers life's great end; Friend after friend departs; who has not lost a friend?

There is no union heart of hearts that was not joyful greeting. Shall awake with joyful greeting. Mantled with immortal bloom. They will meet the friends long parted.

Once on earth a happy band; Meet and dwell with them forever Over in the morning land.

GENEROSITY THANKED.—At this age of human progress, when every man seeks to get all the good trades for himself and leave the bad ones for his neighbors, it is gratifying to know that there still exist some persons who inhabit the earth that are truly unselfish and magnanimous. In combating small-pox within our county our Board of Health, desiring a suitable location for a temporary pest-house, applied to Mr. Walter Sharp, of Sharpsburg, for a suitable place, who responded very cheerfully to our request. Having gone with us about two miles north of Sharpsburg on his beautiful farm he selected an isolated spot in a large blue-grass pasture, with good shade and water, that he granted us without money and without price. We take this means, in behalf of our county officials and Board of Health, to extend to him a vote of thanks.

We had occasion to spend two days during the past week at Sharpsburg to assist their physicians and citizens in preventing a spread of small-pox. They have one case; it is not a Cuban itch or elephant itch; it is small-pox. The physicians there, in connection with their neighboring physician, Dr. Fehndt, who examined the case, recognize it as small-pox, being undecided as to whether it is of the Mt. Sterling or Carlisle variety, the afflicted party having recently visited both places, admitting they have a case of small-pox on hand. They hastily arranged to move the party, with about fifteen suspects, out of town. So in a short time they will be relieved.

Sharpsburg is a model town in a sanitary point of view, is highly situated in a fine country; in many respects interior, but in many respects superior to their neighboring towns. Their men are no better looking than in other towns, their women above the average, they have a most beautiful set of children who we hope will not be marked with small-pox, and this can be prevented by vaccinating them without delay.

A. W. WALDEN, Chmn. Bath Co. Board of Health.

MY CHILDHOOD'S HOME. WRITTEN FOR THE OUTLOOK.

Oh, how I love to visit the hills Where in my boyhood I did roam, Altho' my heart with sorrow fills When I think of my childhood's home. My childhood's home so bright and gay.

My childhood's home where I used to play: I did you once a long farewell, Yet the sadness it caused me tongue cannot tell.

And long I've roamed o'er stranger lands Until my form has grown feeble and old, Yet unbroken is thy strong band And my love for thee has never grown cold.

And in my feeble, declining years I sit viewing my childhood's home, I think of the time untroubled with cares And of loved ones long gone home.

And of a happy, peaceful home, Unbroken by death's sad call: Oh, how that vision before me looms— It is dearer to me than all.

But, alas, unhappy thoughts, They rush upon my mind: Of sorrow and pain, which time hath brought To me, since that time.

I stand and view the dear old spot: Where stood my childhood's home: There's not a trace or single dot, But plows have turned the loam. There's no loving mother's voice sweet.

To cheer the throbbing heart, That beat above barefooted feet, Which oft with chafes did smart.

No father's voice so stern yet sweet, Who in love did use the rod To train our little weary feet In the way that leads to God. They have both passed from the
